

Books that support maths

		<p>The Very Hungry Caterpillar- Days of the week, number</p>
		<p>Ten apples on top- A lion, a dog, and a tiger are having a contest - can they get ten apples piled up on top of their heads?</p>
		<p>Each time the doorbell rings, there are more people who have come to share Ma's wonderful cookies.</p>
		<p>Ant is honoured to receive an invitation to lion's annual dinner party, but is shocked when the other guests behave rudely and then accuse her of thinking only of herself.</p>
		<p>Little Mouse worries that the big, hungry bear will take his freshly picked, ripe, red strawberry for himself. There's only one solution: to share it!</p>
		<p>By following the instructions in the geometrically coded message, Tim finds his birthday present.</p>
		<p>Simple rhyming text and illustrations guide the reader to see triangles, rectangles, and circles in everyday things.</p>

		<p>A square cat struggles in a round world but realises the benefits of her particular shape.</p>
		<p>Colourful pages with lots of different shapes to spot.</p>
		<p>Follow one pair of rabbits through a year as their brood increases. Based on the Fibonacci sequence and also a great starter for multiplication.</p>
		<p>One little duck always has to be first, to the detriment of the rest of the family.</p>
		<p>A snowman comes alive as the child building it adds pieces during the first ten days of winter. The days are numbered in an ordinal manner.</p>
		<p>Nine caterpillars journey across the garden but the tenth undergoes a change.</p>
		<p>Invites the reader to visit a wide variety of places and count different objects found in each, from fire hydrants in a big city in the morning, through starfish in the ocean during the day, to babies sleeping in a country village at night.</p>

	<p>Terror spreads through the jungle as animals hear the news that rough, tough Big Bro is coming. A crew of animals learns that size is relative.</p>
	<p>The reader is invited to guess who causes the boat to sink when five animal friends of varying sizes decide to go for a row.</p>
	<p>A grouchy ladybug, looking for a fight, challenges everyone she meets regardless of their size or strength.</p>
	<p>A little boy measures himself against his animal friends, but as he grows, his height changes too.</p>
	<p>A boy and his dog find a fantastic blue balloon that can be lots of different sizes.</p>
	<p>This book is all about relative sizes. Not much narrative but lots of exciting size vocabulary.</p>
	<p>Five little monkeys go shopping for school clothes with their mama, but in spite of her warnings about not wandering off, things quickly get complicated.</p>

	<p>Count up to ten as ten little beasties come to dance, and then subtract one at a time until there are zero monsters.</p>
	<p>Wibbly Pig has ten balloons and one by one he gives them away until he is left with a difficult choice over the last one.</p>
	<p>Follow Mr. Wolf throughout his day as he encounters familiar fairy tale characters. A clock shows the different times depicted.</p>
	<p>A lift-the-flap book that deals with the fact that it is a different time of day all over the world.</p>
